

Solar is the ideal solution for sports venues looking to utilise Premium, but without the necessary power supply. Convenient, cost-effective and sustainable.

FEATURES

Peak Power	335W
Maximum Voltage	34.7V
Maximum Current	9.7A
Dimensions	1686mm x 1000mm x 69mm
Weight	2.9kg
Mounting Height	4 Metres
Operating Temp.	-40C +85C
Tempered Glass Thickness	4mm

1. CUSTOMISABLE MOUNTING

Surface-mounted, the Solar system is installed close to the gate with the best exposure to sunlight. Further adjustment to the panel's angle and rotation can be made during installation.

2. BATTERY BACKUP

The system uses a 140aH battery, insulated from the elements to ensure running all throughout the year.

3. REMOTE MONITORING

To monitor solar power/weather, battery hold up capacity and system voltage.

MANAGEMENT BENEFITS

- ☆ Solar power is a clean and renewable energy source, contributing to a healthier environment and reducing your carbon footprint.
- ☆ Once installed, Solar generates electricity with no ongoing fuel costs leading to significant savings in energy bills.
- ☆ Solar is a stable energy source with predictable operating costs over the long-term.
- ☆ The system will require little ongoing maintenance once installed.
- ☆ The solar panels require little space compared to the amount of energy they produce.
- ☆ Utilising clean solar energy can enhance your venue's image as an environmentally-friendly business.
